

THE MORNING CALL

SAGE constructs Allentown salon/spa

NOV 26, 2020

Flourish Salon and Spa, a full-service day spa, located at 5036 A, Hamilton Boulevard, opened its doors to the Lehigh Valley earlier this month. It was designed and constructed by SAGE Design-Build Inc.

Flourish will be offering traditional day spa services including nail, hair, facial, eyelash and waxing services. Additionally, SAGE helped design and construct a unique privacy space. This space was initially planned for customers requiring additional assistance but will also offer a separate space because of other health and safety concerns, especially during the current pandemic situation.

SAGE Design-Build, Inc. brings more than 30 years of experience in the design, construction and land development fields and extensive knowledge in planning, managing and analyzing the construction management project, regardless of the stage of the project.
